**Grant intramural and extramural** 10

**Reviewer** 03 journals

**List of Publications** 39

**Book Chapter & Monograph** 06 including IAP textbook of Pediatrics

**Administrative experience:** Co-Faculty in-charge of institute exam cell (2010-2014) and Sub Dean Student affairs 2016-2017

### Contributions to ISPAE

I have been a Pediatric Endocrinology Chapter member since 1999<sup>[1]</sup> and a founder member of ISPAE (2007).

I have served as executive member in 2009-2010 and joint secretary of ISPAE in 2011-2012. I was also the ISPAE representative to the APPE council 2016-2018.

### Scientific/academic contributions to ISPAE:

- I was the ISPAE PET coordinator for the programs held in Bengaluru 2013 and Gurugram in 2015
- I was the Scientific Chair for ISPAE 2016 held along with ISPAD in Nashik and Member, Scientific Committee of the biennial meeting of ISPAE held in Delhi in Nov 2009.
- I was the ISPAE representative to the International Pediatric Endocrinology Consortium (ICPE) that developed guidelines for diagnosis and management of **PCOS in adolescents** and led to the following publications
  - Witchel SF, Oberfield S, Rosenfield RL, Codner E, Bonny A, Ibáñez L, Pena A, Horikawa R, Gomez-Lobo V, Joel D, Tfayli H, Arslanian S, **Dabadghao P**, Garcia Rudaz C, Lee PA. The Diagnosis of Polycystic Ovary Syndrome during Adolescence. *Horm Res Paediatr*. 2015 Apr 1. [Epub ahead of print]
  - Ibáñez L, Oberfield SE, Witchel S, Auchus RJ, Chang RJ, Codner E, **Dabadghao P**, Darendeliler F, Elbarbary NS, Gambineri A, Garcia Rudaz C, Hoeger KM, López-Bermejo A, Ong K, Peña AS, Reinehr T, Santoro N, Tena-Sempere M, Tao R, Yildiz BO, Alkhayyat H, Deeb A, Joel D, Horikawa R, de Zegher F, Lee PA. An International Consortium Update: Pathophysiology, Diagnosis, and Treatment of Polycystic Ovarian Syndrome in Adolescence. *Horm Res Paediatr*. 2017;88(6):371-395. doi: 10.1159/000479371. Epub 2017 Nov 13.

- iv) I was the ISPAE/APPES representative for development of evidence based guidelines for management of PCOS in women and adolescents, an initiative of Centre for Research Excellence in PCOS(CRE-PCOS), Monash University, Australia, and endorsed by nearly 44 international societies and patient advocacy groups. The Guidelines were released in July this year and have resulted in the following publications
1. Teede HJ, Misso ML, Costello MF, Dokras A, Laven J, Moran L, Piltonen T, Norman RJ; International PCOS Network. Recommendations from the international evidence-based guideline for the assessment and management of polycystic ovary syndrome. *FertilSteril*. 2018 Aug;110(3):364-379. doi: 10.1016/j.fertnstert.2018.05.004. Epub 2018 Jul 19.
  2. Teede HJ, Misso ML, Costello MF, Dokras A, Laven J, Moran L, Piltonen T, Norman RJ; International PCOS Network. Recommendations from the international evidence-based guideline for the assessment and management of polycystic ovary syndrome. *Clin Endocrinol (Oxf)*. 2018 Jul 19. doi: 10.1111/cen.13795. [Epub ahead of print]
- v) As a member of ISPAE/APPES, I was invited for **“Meet the Professor session on PCOS”** in **APPES meeting in Darwin Nov 2014** and had an **invited talk on “PCOS: What the world can learn from India?”** in the **Joint LWPES/ESPE meeting in Milan** in Sept 2013
- vi) Along with Dr Anurag Bajpai, I have contributed to and edited the Endocrine section of Drug Formulary of the IAP (2009)

#### **Administrative responsibilities**

- i) During my tenure as Joint Secretary, along with Dr PSN Menon, I prepared the paperwork for and successfully conducted the special GBM during ESICON 2010 in Vellore to enable changes to the bylaws of the Society.
- ii) I helped with the paperwork for renewal of registration in 2012, so as to deposit everything with Registrar of Societies within specified time limit.
- iii) During both the terms of council I have worked closely with the auditor to gather and provide him all the necessary paper work [beating deadlines].

I feel that I am suited for the post of President of our Society, having worked through junior positions of responsibility, looking after the nitty gritty, and having represented ISPAE in international academic fora on multiple occasions[2]; as well as a sound academic background of teaching and research in the premier institution of India as far as Pediatric Endocrinology is concerned. I would be able to bring organizational ability and academic gravitas to the position, so that ISPAE can grow further.
