

CURRICULUM VITAE

Dr. Siddhnath Sudhanshu

MBBS, MD (Pediatrics), PDCC (Pediatric Endocrinology)

Assistant Professor

Pediatric Endocrinology, SGPGIMS, Lucknow

Contributions towards ISPAE

I have been a member of ISPAE since 2013. I developed the patient information document Aao School Chale (a Hindi pamphlet for the teachers and schoolmates of a newly diagnosed child with diabetes going back to school) which is available for free download from the ISPAE website. Similarly, a patient information sheet in Hindi on Celiac Disease was developed by me for the ISPAE website.

2. I was actively involved in revisions and upgradation of diabetes education book “Madhumeh – Ek parichay” compiled by Dr V Bhatia and Dr E Bhatia, available on the ISPAE website.

3. Based on my research experience on Newborn Screening, I was given the opportunity of being the first author on a Clinical Practice Guidelines manuscript by the Indian Society for Pediatric and Adolescent Endocrinology (ISPAE), on *Newborn Screening Guidelines for Congenital Hypothyroidism in India: Recommendations of the Indian Society for Pediatric and Adolescent Endocrinology (ISPAE) Part II: Imaging, Treatment and Follow-up*.

I was also given the opportunity to be in the writing committee of part I of the above mentioned Clinical Practice Guidelines by ISPAE.

What I can bring to ISPAE:

As an active lifetime member of ISPAE, I wish to work with my seniors and colleagues towards expanding the tremendous work already being done by ISPAE for patients and healthcare professionals. In my position as a young faculty member in an academic endocrinology department, I have protected time to work full time for the specialty.
